

The Infinity Solutions 5K Pressure Seal System is an integrated folder/sealer with a processing throughput of up to 7,000 forms per hour. By leveraging patented pressure seal technology for a tighter seal to protect the integrity of your document processing and Sound Deafening Covers as a standard option provides for a quieter operating unit.

We have designed the 5K with a bottom feed system; a convenient and easy to use 6-digit, resettable, batch-capable counter; six fold patterns that can process forms up to 14" in length. The integrated conveyor output system helps move your forms in a seamless paper stream, while maintaining the processing order.

The Infinity Solutions 5K is completely manufactured in the United States and its durability is unmatched in the industry.
