

LMQ II

Bri-Lin Infinity Solutions® product line continues to lead the industry with the LMQ II Pressure Sealer. Designed for short run and low volume document processing, the LMQ II offers an out of the box solution without the costly add-ons of the competitive products. By leveraging Bri-Lin's patented pressure seal technology, pressure seal forms are sealed as they are folded reducing operational costs and improving productivity. The LMQ II offers quick setup, quiet operation, and supply's user friendly controls returning the simplicity to document processing.

Standard Features include; document processing up to 5,000 documents per hour, a manual & batch counter, bottom feed technology for continuous operation, an integrated 18" conveyor, and fold plates capable of processing 11" & 14" forms. The Infinity Solutions® LMQ II is completely manufactured in the United States and its durability is unmatched in the industry.

The LMQ II is manufactured in the USA.
